Marriages, Couples, and the Making of Mathematical Careers

All timings are given in British Summer Time (UTC+1). Talks will last around 20 minutes and will be immediately followed by a Q&A, with an extended plenary discussion to conclude the workshop.

29th April

1.00PM Introduction and welcome
David Dunning & Brigitte Stenhouse

1:15PM *"For Better or For Worse": The Mask of "Marital" Collaboration in the Sciences*
Don Opitz, DePaul University & Brigitte Van Tiggelen, Science History Institute

2.00PM Break

2.15PM *"You must also count the woman, even if it is only due to the man": Mathematicians' Wives and the Construction of Bernhard Riemann's Lebenslauf*
Jenne O'Brien, Princeton University

2.45PM *John and Eliza Ware Rotch Farrar: Two Careers Amid Sickness and Health – But Mostly Sickness*
Amy Ackerberg-Hastings, MAA Convergence

3:15PM *Caroline of Brandenburg-Ansbach and the Leibniz-Clarke-Correspondence – Leibniz' friend, student and impartial critic*
Charlotte Eckert, Johannes Gutenberg-Universität Mainz

3:45PM Break

4:30PM *Augusta and Dorothea Klumpke – Toward an interdisciplinary comparison of career opportunities for married female mathematicians and physicians during the long 19th century*
Eva Kaufholz-Soldat, Goethe-Universität Frankfurt

5:00PM *The Odd Couple*
Danny Beckers, Vrije Universiteit Amsterdam

5:30PM Break

5.45PM *"She makes her own dresses": Patterns of partnership for some Oxford computing pioneers.*
Ursula Martin, Oxford Maths & Edinburgh Informatics

6.15PM *Queer relationships and mathematicians' archives: Describing the Dorothy Bernstein and Geraldine Coon Papers*
Elliot Williams, University of Miami

6.45PM   *The problem and probability of marriage among lady mathematicians in Progressive Era America*
Jemma Lorenat, Pitzer College

7.15PM   Conclusion of talks on Day 1

8.00PM-   Conference "dinner" (for informal socialising)
9.00PM

<u>30th April</u>

11.30AM-   Conference "breakfast" (for informal socialising)
12.30PM

1:00PM   *Grace Chisholm Young, William Young and the division of laurels*
Patricia Rothman, University College London

1:30PM   *Hilda Geiringer and Richard von Mises: A married couple of pioneers of modern applied mathematics*
Reinhard Siegmund-Schultze, University of Agder

2:00PM   Break

2:15PM   *Paul Dubreil and Marie-Louise Dubreil-Jacotin's early professional years : What impact has a marriage between two mathematicians had on their respective careers?*
Simon Decaens, Independent

2:45PM   *Marriage, mathematics and poetry: A story of collaboration in mathematics from 1930s Nepal*
Deepak Basyal, Coastal Carolina University

3:15PM   *Alicia Boole and Walter Stott, a match made in logic*
Moira Chas, Stony Brook University

3:45PM   Break

4:30PM   *Social integration process of an Italian living in Paris: Geneviève de Laistre and Giovanni Domenico Cassini professional career in France*
Dalia Deias, Ehess-Centre Alexandre Koyré

5:00PM   *Astronomy as a family enterprise in Early Modern Europe*
Isobel Falconer, University of St Andrews

5:30PM   Break

5:45PM   Plenary Discussion

6:45PM   Conclusion of workshop
